Project Update and Request for Support / Universally Accessible Outdoor Archery Course

Dear Community Supporter,

Our *Universally Accessible Outdoor Archery Course* expands West Falls Conservation Society, Inc.'s existing indoor and outdoor archery ranges. In 2024, we completed **Phase 1** of construction.

Phase 1 construction consisted of the following:

- Removal of unwanted vegetation
- Rough grading of the area and improvement of site drainage
- Creation of ten shooting stations, pathways and two parking areas
- Application of rolled blacktop millings on pathways & two parking areas
- Purchase of 3-D targets for the course

After evaluating wheelchair rolling resistance on the pathways, we established the following goals for **Phase 2**.

Phase 2 of our project includes:

- Asphalt paving of the pathways to promote easier wheelchair accessibility
- Marking the pathways to assure safety and improve functionality

To date, West Falls Conservation Society has funded 78% of the construction costs for this project. Donations from generous corporate and private sector supporters helped cover the remaining cost. Additional funds are now needed before Phase 2 can begin. (estimated phase 2 cost is $59,600)

Phase 3:

- Landscaping of the area to improve the esthetics of the course
- Addition of signage for donor recognition
- Addition of a wheelchair accessible outdoor bathroom
